

## Quick Start Guide: Class Codes

### Step 1: Create Your Account and Your First Class

Go to [app.writereader.com](http://app.writereader.com) and sign up as an educator.

Log in Sign up

E-mail \_\_\_\_\_

Password \_\_\_\_\_

First name \_\_\_\_\_

Yes, I agree to the [terms & conditions](#) and I'm over 18 years old.

Sign up

or sign up with

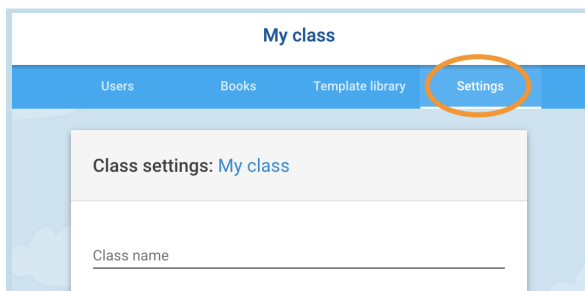

Google

or sign up with

Google Classroom

You can sign up using Google sign in or email. You will automatically be logged in and your first class will be created.

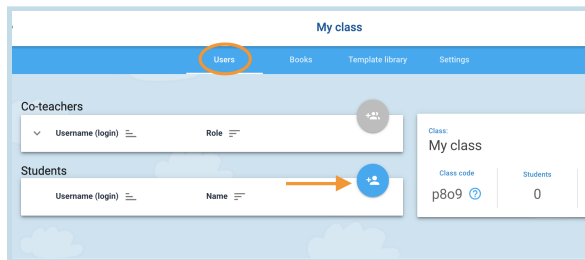

**NOTE:** To import class rosters from Google Classroom, choose Google Classroom login. Learn more about this method [here](#).

Your first class will be called "My Class". You can change the name of your class by clicking on the Settings tab.

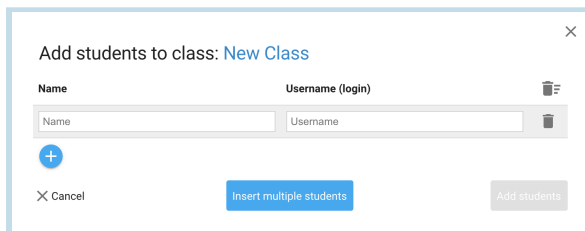

## Quick Start Guide: Class Codes

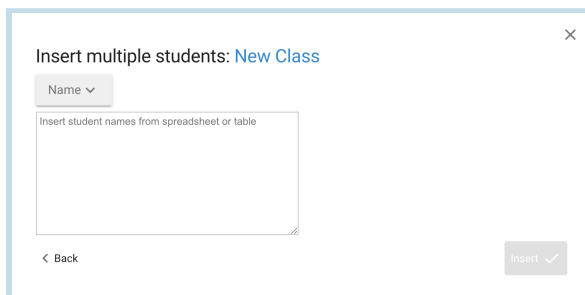

### Step 2: Add Students to Your Class

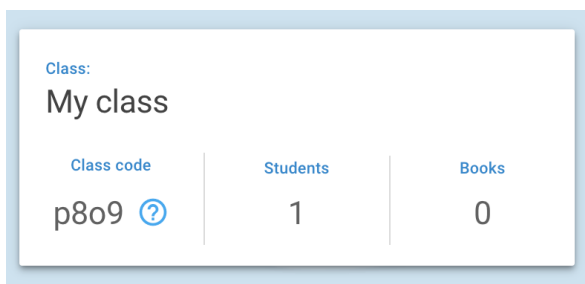

To add students, navigate to the Users tab.

You can add students one at a time, or choose “Insert Multiple Students” to add more than one student at once.

When you insert multiple students by name, a unique username will be automatically generated for each student. If you prefer to create your own usernames, you can choose “Username” from the dropdown menu and insert your preferred username for each student.

### Step 3: Login

Students will login at [app.writereader.com](http://app.writereader.com) with their Username and Class Code.
